

GLOBAL  
CLEAN ENERGY  
ACTION FORUM  
CEM13/MI•7 USA 2022

The Global Clean Energy Action Forum (GCEAF) came to a successful close last week, ending three days focused on the goal of accelerating action toward a clean energy transitions. Huge thanks to our hosts, the U.S. Department of Energy and the city of Pittsburgh, for delivering a truly spectacular event, and to the thousands of participants who showed up in force from around the world to demonstrate the groundswell of support for a net-zero future.

## Highlights

Here is just a sampling of the new high-impact outcomes spearheaded by the Clean Energy Ministerial (CEM) that were unveiled at the event:

- The launch of the new [Transforming Solar](#) workstream.
- The [CEM Action Fund](#) was launched to help turn the CEM communities ambitions into a reality.
- The Announcement of a common [Government Fleet Declaration](#) to decarbonise fleets of government owned vehicles.
- CEM and Mission Innovation (MI)

were named as the future home of the [Breakthrough Agenda](#).

- The launch of a new coalition - [Research Impacts on Social Equity and Economic Empowerment \(RISE3\)](#).
- Governments announce a [Green Public Procurement Pledge](#).
- Publication of the [BloombergNEF Energy Transition Factbook](#).
- CEM members responded in force to President Biden's challenge to mobilize [\\$90BN in public funding by 2026](#) for demonstrating clean energy technologies.

### **Pittsburgh Action Pact**

The [Pittsburgh Action Pact](#), a comprehensive summary of the ambitious new actions and commitments announced by CEM at GCEAF, covers the entire clean energy spectrum, including: Power, Industry, Transport and Fuels, Investment, People and International Collaboration. [Details here](#)

### **Short Film Series**

Throughout the week, CEM released a series of short films highlighting the opportunities of the energy transitions across all sectors of the economy. Be sure to watch the full-length 5-minute version. [View here](#)

### **Next up: India & Brazil**

During the closing ceremony, U.S. Secretary of Energy Jennifer Granholm passed the hosting baton on to India, who will be hosting CEM14/MI8 in 2023. We were also delighted to announce that [Brazil](#) will be hosting CEM15/MI9 in 2024!

Heartfelt thanks to our CEM community for all of your engagement and contributions that helped make the GCEAF such a huge success. Be sure to follow us on [Twitter](#) and [LinkedIn](#) for the latest developments on the clean global clean energy transition.
